PROFESSIONAL SUMMARY

Information Systems student at Anhanguera University and Systems Development technical graduate from SENAI, currently working as a Research and Development (R&D) Apprentice at Motorola Mobility.

Experienced in operational support, device and material management, software and device testing, bug reporting, and process automation using Google Apps Script and Google Sheets. Knowledge of web development, databases, version control, and API integration. Organized, proactive, and eager to learn, with a strong interest in software development, software quality, and technology innovation.

PROFESSIONAL EXPERIENCE

Motorola Mobility — Research and Development (R&D) Apprentice

April 2026 – Present

- **Software and Device Testing:** Participate in the Dogfood program, testing devices and software versions under development, identifying issues, and documenting bug reports to support product quality improvements.
- **Process Automation:** Develop small-scale automations using Google Apps Script and Google Sheets to improve internal workflows and tracking.
- **Device and Prototype Management:** Organize and track devices, prototypes, and materials used in R&D activities, ensuring proper identification and organization.
- **Operational Support:** Receive, inspect, organize, and route materials from China and partner research institutes to internal Motorola teams.
- **Shipping and Logistics:** Prepare shipments for partner research and development institutes, including Eldorado and Venturus.

TECHNICAL SKILLS

- **Web Development:** HTML, CSS, JavaScript
- **Back-end Development:** Application development and API integration

- **Databases:** MySQL, PostgreSQL
- **Version Control:** Git, GitHub
- **Process Automation:** Google Apps Script
- **Spreadsheets and Data Management:** Google Sheets, Excel
- **Application Deployment:** Vercel

EDUCATION

Bachelor's Degree in Information Systems

Anhanguera University | In progress

Technical Degree in Systems Development

SENAI, Jaguariúna, Brazil | Completed December 2025

Technical High School Diploma

E.E. Júlia Calhau Rodrigues, Jaguariúna, Brazil | Completed

CERTIFICATIONS

- Artificial Intelligence Fundamentals — SENAI (20 hours)
- Python Programming — SENAI (60 hours)
- Integrated IoT Solutions — SENAI (60 hours)
- Basic Excel — SENAI (20 hours)

ACADEMIC ACHIEVEMENTS

- Gold Outstanding Student Award — SENAI (2025)
